Introduction

J. Shemer, Y. Shoenfeld: Diabolical Terror

J. Shemer, S. C. Shapira: Terror and Medicine – The Challenge

Y. Blachar, M. Borow: From Geneva to Afghanistan: The Ethical Implications of Terror and the Effect on the Physician

A. Eldad: National Preparedness for Biological Mass Casualty Event: Between the Devil and the Deep Blue Sea

Policies and Doctrines of Non-Conventional Warfare

M. Maman, S. Luria: Non-Conventional Terrorism: Historical Aspects

S. C. Shapira, J. Shemer: The Medical Management of Terrorist Attacks

S. C. Shapira, J. Shemer, M. Oren: Hospital Management of a Bioterror Event

S. C. Shapira, K. Peleg: Medical Guidelines for the Management of Mega Terror

L. Poles: Principles of Contingency Planning for an Unusual Biological Event

Chemical, Biological and Radiological Terror

General Overview

M. Huerta, A. Leventhal: The Epidemiological Pyramid of Bioterrorism

M. S. Green, Z. Kaufman: Syndromic Surveillance for Early Detection and Monitoring of Infectious Disease Outbreaks Associated with Terrorism

A. Eisenkraft, E. Robenshtok, S. Luria: Personal Protection against Chemical and Biological Warfare Agents

R. Rubenshtein, E. Robenshtok, A. Eisenkraft, A. Vidan, S. Luria, A. Hourvitz: Training Medical Personnel to Treat Casualties of Nuclear, Biological, or Chemical Warfare

M. Oren: Bioterrorism

Chemical Agents

E. Robenshtok, A. Eisenkraft, S. Luria: Preparedness of Local and National Health Systems for a Chemical Terrorist Attack

S. Luria, E. Robenshtok: Organophosphates: Nerve Agents, Pesticides, and their Use as Chemical Weapons

R. Rubenshtein, S. Luria: Cyanides

R. Ben-Abraham, I. Shapira, S. A. Berger, A. A. Weinbroum: Acute Care and Perioperative Management of Casualties with Combat Anticholinesterase Poisoning

A. Gilad, I. Layish, S. Luria: The Tokyo Subway Sarin Attack

A. Eisenkraft, Z. Tashma, S. Luria: Mustard Gas – Clinical Implications and Management

A. Vardi, I. Levin, H. Berkenstadt, A. Cohen, A. Ziv: Simulation-Based Training of Medical Teams to Manage Chemical Warfare Casualties

Biological Agents

E. Robenshtok, R. Sagi, L. Katz, B. Brenner: Biological Warfare – Disease Prevention and Post Exposure Medical Treatment

A. Orr-Urtreger: Detection and Clinical Identification of a Biological Weapons Attack

A. M. Yinnon, Y. Schlesinger, D. Raveh: The Spectrum of Clinical Presentations Associated with Biological Warfare

R. Kaempfer, G. Arad: Biodefense Strategies against Superantigen Toxins

O. Aizenstien, O. Lehavi, M. Maman, R. Sagi: Tetracyclines and Ciprofloxacin as Treatment for Children and Pregnant or Lactating Women in the Era of Biological Terror

Y. Nofech Mozes, A. Winder, B. Tadmor, E. Rotman, M. Maman, R. Sagi, A. Hourvitz: Anthrax – an Overview at 2003

D. Michaeli: Smallpox

L. H. Katz, R. Sagi, A. Hourvitz: Smallpox – Past, Present and Future

P. E. Slater, E. Anis, A. Leventhal: Smallpox Preparedness in Israel: Recommendations and First Steps

M. Hueta, R. D. Balicer, A. Leventhal: Analysis of the Israeli Smallpox Revaccination Program – Strength, Weaknesses, Threats and Opportunities

S. A. Berger, A. A. Weinbroum, I. Shapira: Hemorrhagic Fevers and Bioterror

Y. Yehezkelli, R. Sagi, M. Maman: Ricin – A Potent Plant Toxin

Radiological Terrorism

Y. Yehezkelli, O. Lahavi, T. Dushnitsky, A. Hourvitz: Radiation Terrorism – The Medical Challenge

Trauma

M. Michaelson, N. Olim, G. Hyams: Preparedness for Mass Casualty Situations – the Key to Success

K. Peleg, L. Aharonson-Daniel, M. Michaelson, A. Rivkind, D. Simon, R. Alfisi, G. Shaked, M. Stein, Y. Kluger, I. Jeroukhimov, S. C. Shapira: The Epidemiology of Terror – Data from the Israeli National Trauma Registry

M. Stein, A. Hirshberg: Limited Mass Casualties Due to Conventional Weapons – The Daily Reality in a Level 1 Trauma Center

D. Shaham, T. Sella, O. Goitein, A. Makori, L. Appelbaum, P. Lebensart, A. I. Rivkind, J. Bar-Ziv, E. Libson: Terror Attacks: The Role of Imaging

G. Almogy, A. I. Rivkind: Suicide Bombings: The General Surgeon's View

G. Steuer, S. Goodman, P. Levin, S. Einav, B. Minz, C. L. Sprung, A. I. Rivkind, C. Weissman, Y. G. Weiss: Acute Lung Injuries among Survivors from Suicide Bomb Attacks

A. Eldad, J. Peleg, T. Tzur: Terror and War Burns in Israel

J. Hiss, M. Freund, U. Motro, T. Kahana: The Forensic Pathology of Terrorism in Israel – Two Years of Suicide Bombings

I. Braverman, D. Wexler, S. Abu-Mouch, Y. Brandstetter, M. Oren: Penetrating Bone Fragments in Suicide Bombings: A Potential New Mode of Infection

M. Himelfarb, J. T. Cohen: Otologic Manifestations of Blast Injury

Rehabilitation of Victims of Terror

G. Zeilig, N. Knoller, M. Zwecker, R. Laufer, A. Brezner, H. Weingarden: Unique Aspects of Rehabilitation of Spinal Cord Injuries in Victims of Terror

Psychological Aspects

I. Kutz, A. Bleich: Conventional, Chemical and Biological Terror of Mass Destruction: Psychological Aspects and Psychiatric Guidelines

S. Noy: Preventive Program against Biological Warfare: The Public must be an Informed Active Participant

S. Noy: The Clinical Pictures Expected at the Stage of Impact in a Situation of Biological Warfare

A. Ponizovsky, A. Grinshpoon, A. Yagur, B. Ben-Gershon: War Stress in a Primary Care Clinic in the Neighborhood of Gilo, Jerusalem

Veterinary Medicine

D. Elad: Veterinary Medicine and the Biological Threat
